

I'm telling you, it is always a blessing to be able to be here. I'll tell you why. This is one of the model prototype church works that I know and the network of churches that are part of it are, it's just wonderful to be able to start a year off in a church like Trinity in Amarillo. Let's thank God for this place.

We're a little different than everybody, my wife and I, we've been married over 50 years now, we're different. And you want to really recognize how incredible it is when God is bringing out the best in us. And I want to encourage you that's going to be happening this year. Now, I want to try to help us understand the times. Kim and Jimmy and I were talking. Let's thank God for Kim and Jimmy also and the whole staff here, just awesome and all of those satellite churches, you being a part of us and joining in with us because one of the things we do is try to hear what the Lord is saying so we know how to walk in revelation. See, it's a big difference between revelation and wisdom. Revelation uncovers; wisdom instructs your path. And so a lot of times prophetic people are really a part of the uncovering of something that hasn't been seen before and realigning what is going on in the world today with the word of God.

I mean the word of God is the Word of God. It is the absolute of all authorities other than God. It is the absolute in the earth realm and your conscience is one of the absolutes. So when you align your conscience with the word of God, you have great authority. And I want to encourage all of you to read through the living person called the Word of God. See, a lot of people look at it the Word of God as a book and the Word of God is a living person that you're interacting with and fellowshiping with. And one of the things I'm doing this year, the Lord told me in January to read the book of Ephesians every day in this month. Now why would the Lord say something like that? Because Paul prays for the people of Ephesus to have both the spirit of revelation and wisdom resting upon them because of the days ahead. Now, the beauty of Ephesus, which I've been there, we actually had a worship gathering there of 6,000 from all around the world in the coliseum that's there. And the beauty of Ephesus is it deals with a city and it also deals with us individually, deals with spiritual warfare and how we are seated in triumph. I want you to look at somebody next to you and say, get ready to triumph this year.

Now, why do I say that? It's because we are living in an era of war. Now I will try to show you some things as we move forward through in 2019 we shifted over into a new historical era. See an era isn't like a season, an era is where history is changing. So we are in a changing time and all of you recognize all that we went through since September of 2019. My year always starts with the cyclical year, the way the harvest is written for us in the Word of God at Feast of Tabernacles. And starting then, history started changing. We are in a new historical time. God is in this time. If you want to look at it from a Hebraic standpoint; it is called the pay era. Now that era means a great voice is being released. It means a wind is blowing, and I want to say the line of the tribe of Judah is blowing from the heavens across the earth. That is causing a great rearrangement of the world.

And with that, you also know that the heavens are changing. A lot of us don't understand the heavens, which the Word of God says changes like an old garment. And we are in a season where heaven is changing. We're having a realignment between earth and heaven. Therefore, God's remnant people are praying differently than they have ever prayed. So, this year we accelerate in this new era. And anytime you're in a new era, you have to know that as we find

in the book of Revelation chapter 12, that the dragon always rises its head. Therefore, this era is an era of great conflict. That's all war means. It is a time of conflict. We're seeing that worldwide. Now, this era also is about the voice that is coming out of your house. Put your hand right here. See, when I love that one song we were singing about the name of God when God was knitting you together in your mother's womb, he was knitting all of his names inside of you.

And not until your spirit comes back alive to him and through the blood of his son and by his spirit do those names come alive. But in this era, we must be aware of the names of God that we carry within us. Now if you want to understand that the word in Hebrew is shaman, same word that shaman comes from, it means atmosphere. And so when you speak into the atmosphere and you speak his name or what he is saying into the atmosphere, all of a sudden the atmosphere has to take on the characteristics of his name. If not the god of this world, who is already defeated, will attempt to rule and reign in the atmosphere. That's why you're signing this petition. I look at Denton, Texas. Denton is more liberal than we find out here when we get to Amarillo and some of the other areas. Denton and Austin, we find them fairly liberal in their thought process.

And we actually in Denton had the oldest abortion clinic in all of Texas. And I asked the Lord, I said, Lord, what do we do? I don't want us to go march and do all that and look like we're mad people, and I want to do what you said, what you say to. So the Lord asked me to go visit first of all, and then he said, now I want you to gather together and I want you to worship for three days. If you'll gather together and worship for three straight days nonstop, I will intervene. Because see, you've always got to go to the first prototype so everything else can unravel. And I mean I had people say, I have no idea how we're going to worship for three straight days, but the Lord let us. He gave us grace. At the end of the third day and the beginning of the week, we still have the headlines.

Oldest abortion clinic in Texas decides to shut down. The atmosphere in Denton is not conducive for that any longer. Now I'm going to tell you we are in a time where God's people, their voice is going to rule the atmosphere. Now that means you're going to learn how to speak and determine the rule for your future. Now with that, you want to know that war is on every side, every which way you turn. Of course, we've always been very involved with Israel through the years, and what you saw happening there in October. Of course we've got lots of kids and family and ministers there that have lived through two full wars there already. But this one is intense and has an intensity like never before. And why that's important is you always watch God's first nation. Once you see what is happening in that first nation, you have to understand that it's going to be setting a course for everything else.

And so I don't want you to think, "Well, they're warring over there in Israel. They're always warring in the Middle East." It's a little different this time. There was something different that occurred. The Lord took me to Joshua 14, and you find in one of the passages of Joshua 14 that when Caleb went into the land, they did away with all the giants except in one place, Gaza. And God said, I am coming now to deal with giants that have never been dealt with before. I'm coming to uproot some things that has never been uprooted before. So, one of the things you can look at this year is a lot of uprooting. Well, what does that mean? It means it's going to

aerate the ground and we're going to be able to replant. Now look at somebody and say, get ready. You're going to plant a whole new crop, but you need to know that you are living in a season of tension.

And I love the way the Lord in the Word moves us toward his promise. Remember, after 400 years, he finally had this group ready to accomplish what he promised Abraham 400 years ago. Now that is one of the keys to prophecy. Once God says something, he is the same yesterday, today, and forever. He doesn't forget what he says. Therefore, there came a time that what he prophesied to Abraham, he was ready to move a people into the fullness of that. Now, that's another joy of reading Ephesus. If you'll read the book of Ephesus and the book of Joshua together, you'll understand they're really about the same book because in Ephesus it talks about that until everything is summed up. Now things are being summed up all around us right now. That means prophecies that have been spoken, all of a sudden things have added up and God is ready to move on those things.

So get ready. You're going to see his movement this year in a way that you have never seen his movement. And yet when he was ready to move him forward, he called him into war units. Now that's what I love so much about being here. You've got the mothership here, and then you've got all these other warring units that are connected here and he is saying, get ready. I'm going to call you into a new place of worship this year. And then remember in Deuteronomy 20, he said, now I've got laws of war. As long as you don't violate those laws of war, I will lead you into triumph. So in the midst of the tensions that we're living in, God already has a plan for our victory. Now with that, you read the book of Daniel and you find that Daniel prophesied something.

He prophesied there would come a time where the saints would be seated over the nations. Now this coming year we're going to see great national change, great changes throughout nations. You cannot allow all the changes that go on to throw you out of your abiding place. See, the war that we really have is there's a war to get into your abiding place and then there's a war to stay in your abiding place. Now, that's why Dr. Beeftu and I knew we needed to have a book ready as we went into this season. Now there's five areas of tension and as you look at your own life, you will see how you work in these five areas. First of all, there's familial our family tension. You have a family you're part of. Then there's a societal tension. I love that you're confronting some of the tension in this society in Amarillo to make it a sanctuary city. Then there's religious tension. I'm going to tell you all through the New Testament, what you really saw was a religious tension that was occurring. We're going to see it intensified this year. That's why you must know where you're seated and who you're connected with. It's very important this year. Then the political tension this year; I just want to encourage you to just take a deep breath and say, oh my, it's going to be bizarre. And don't let the political tension get you messed up in the familial tension with your family.

And I think the enemy is always creating warfare in our economic structures. So with that, always remember this Ephesians 1 and 2, the real war is not the warfare that's going on around you but that God is summing up things for triumph. Everybody say the word triumph. See, you want to think triumph, you want to walk in triumph, you want to move in triumph. You want to know that in these leadership tensions you will triumph in these political tensions. You will

trump in these provisional tensions, you will triumph. And then here's something I want you to understand about this new era we're living in. It's supernatural. The supernatural has increased. We have always been a supernatural people, but the atmospheres around us have not been as supernatural as we are about to see. So you're going to have to see how to maneuver in the midst of the supernatural.

And then here's what's really happening. You find this in Ephesians 1-4. See, God said, and here's the mystery of Ephesians, God said, listen, I plan all those gentiles to come in along with the Jews who are going to come to know me. And then I'm going to make them one new man. Now, you are going to see nations divide over this very thing. We're already seeing our nation divide over the one new man tension that God is bringing for this hour. And with that he said, I won't have genders that are ruling. I'm going to use male and female. I won't have racial issues. You all come out of the same pot. Acts 17 says that. I'm not going to have sectarian issues. I'm to raise up a remnant that knows how to worship, and they will be seen as the ruler of the atmosphere. Now poke somebody and say, I think he's talking about you.

So, we're having a great time because we have to see the core of our society rebuild. See, one of the things that happened to me, I came to know the Lord when I was 11. I came to know Holy Spirit when I was 18, and from that day forward I started immersing myself in the Word. Now, I've gone through lots of things with lots of people and lots of struggles. But what happened starting when I was 18, I started to build the core of my belief system. Now put your hand right here again, it is so important that the core of our belief center is in place this year. Think of a nuclear core.

Think of how you are going to get that core spirit man of yours built in such a way this year that no matter what situation you're in, you're going to radiate the energy that is necessary to change that situation. You're going to allow the Lord himself who's chosen to be at home in you to rise up, open the door of your house, and you're going to speak forth. Now, get ready. I want to say to all of us, the voice of the Church is changing this year. Now I'm a Daniel. I was trained at Texas A&M and North Texas and in the world, but I had my core in place, therefore I wasn't tossed to and fro. Now my role in the body of Christ since the eighties has been going to nation after nation with people groups after people groups, and being in some very bad situations. Without having that core, I couldn't have said what needed to be said in those situations.

Now, this year the Lord is telling his people, you can look up here, he is going to make his Word so alive in his people. This thing's going to come alive this year with worship. If you look at you surrounding this core here, this is really what it's going to look like this year the Spirit of God is coming back to the church to make himself center. Now, we need to get ready because his power is going to radiate, and it's going to cause the power in you to come alive in a whole new way. Now, and you know why? Because the word of God says this in Proverbs, the spirit of man can withstand the weakness, the infirmity that attempts to overtake, weaken or defeat him.

Your core spirit man, when he is centered in it can withstand that which is trying to weaken you. See, infirmity isn't quite the same as just sickness. Infirmity is that which weakens you, so

you can't stand strong. See, there comes a time appointed that we all die. It's not about us dying, it's about who remains so strengthened that they radiate faith in the midst of that. See, we are in a time of radiating faith. Now, first thing I want to remind you is when God looked down at the chaos here, he said, wait a minute. After he had cast Lucifer out, he said, all that chaos, I am ready to speak into it. Well, this era looks like that. He said, I have a people I have been training and positioning. So in the midst of chaos I will speak through them. Now that's us.

He is getting us ready to do just that. And what did he do? He spoke for six days and then worked out what he had spoken. Now, this is going to be a key pattern. In other words that which doesn't seem to have distinction, that seems to have confusion, God says, I'm ready to work out a lot of things this year. I'm ready to work out those things that seem like they are going to confuse the whole society. And with that, you have to know, in this era of speech, speech creates manifold possibilities. That's why Zion is so important because it instructs you. God has a voice, and, at the right time, he wants to use yours. And it makes you aware that all year long he is watching, so that when there comes a chaotic undistinguishable situation into your path, he's put you there so you can say what you need to say.

See, let me just summarize it by saying this. We're going to be heard this year. You are going to say what you know you should say and how you speak and how you see and say what you see is the key to the year ahead. See, this year, now in the fourth year, it's really important to understand that this fourth year is linked. Dalet in Hebrew is linked with your new entry place, your door, your access, your gate. Think about all your farmers out there with all your gates; every gate and every door is important. And when you get to those gates or get to those doors, see there's a requirement that makes it different from 10 years ago. The only way they're going to open up is somebody's going to have to say something.

Now poke somebody next to you and say, I think he's talking about you. We will all have a moment where we have an opportunity, where we have an access that's new and fresh. And how we say and speak faith at that moment is how things are going to open up for our entire future. See, the word future is an interesting word. It's really not, that's not the biblical word. The biblical word is expected end. In other words, he's alpha and omega and you are going to have to get to the end of something and to get to that end, your expectations are going to have to come alive in a new way so that you speak at the right moment.

And when you do, all of a sudden you're going to see things open up and you're going to see your history change. You're going to see your family changed. You're going to see things change. That's why this year there will be so much contending in the airways over what is being said. Now, that brings me to [Wednesday] morning. All of a sudden, I was speaking because we had our "Starting the Year Off Right" event all day Tuesday. And then on Wednesday, I spoke, and then we had it virtually. That's available for each one of you. Lots of people saying 10, 15 minutes of what they saw happening.

But that morning, I was speaking and all of a sudden I saw something. Now Aaron show this next picture. Now, I've shown a tornado out here before. It was glory, and it was ominous. That isn't what this was. And I knew it was coming all through West Texas and up through the

panhandle it was stirring things, but notice it looked different than a storm. The fields were green. There was prosperity, but it still had this tornado wind that was swirling in the midst of the prosperity. And then the Lord all of a sudden caught me up higher and he showed me him forming this wind.

He said, I'm going to go from north, south, east, and west starting in West Texas. And I'm going to pull together the winds and they're going to start to move. It wasn't ominous, I want to say that to you. It wasn't, oh, take shelter. He was going to pull together the winds here, all four winds, but they were going to be centered here in the west and then they were going to move from the west toward the east. Now, I saw these winds coming close to Lubbock, near Amarillo, up in the panhandle and they were being pulled together. So I asked the Lord, I said, Lord, show me what you're saying since I'm going to go to Amarillo, and it would be nice that I give them some sort of encouraging word.

And all of a sudden the Lord took me to the four winds in the Bible. Now, I'm going to tell you something prophetically see, prophecy is really, it's not spooky. It's sharing the mind and heart of God. It takes both mind and heart. It's not just truth. It's how does God feel about certain situations, and you're never going to be able to fully interpret how he feels without his word. I must encourage you again, please get in the word. Please find whatever Bible that will speak to you this year because it's very important. And in the Bible, the four winds is how God manifests himself. See, he would bring these four winds together and then things would begin to happen in a new way. It was almost like a sign of his invasion. Now I will tell you, God is coming to West Texas in a new way.

There is something about this ministry after all these years and the alignments that has given the Spirit of the Lord access to come. So he's coming. You need to get excited; you need to shout hallelujah now. So, each wind biblically means something, and if I saw him pull them together, then go up through West Texas, then start going east. It was important that I knew how to pray. See, the north wind is the wind that brings refreshing. So I want to say to all of you in the northern part of Texas, get ready. There's a refreshing wind coming to you, and that wind, as you worship, is going to be pushed on down so it connects in a whole new way. See, the reason I'm here this time is to tell you, you will be connecting the winds of the Spirit in a way all the way from south to north, east to west in West Texas that will then affect an entire nation. So, you're going to have to know this year is just not about you. Look at somebody and say, I'm sorry he said that, but it's bigger this year.

Now the north wind is how rain comes. So, that says there's a manifest presence coming in a new way in the north. I want you who are from that territory to start praying that the manifest presence of God come in a new way. Now the east wind, it is not a bad wind, because it takes all four, but it is linked with judgment. The east wind, if you'll remember, opened the way in a whole new way, and before long this wind that has formed here becomes the east wind for America. Now think like that. This east wind parted the Red sea, but it also pronounced judgment on the enemies. I thought it was very interesting that word that was given from Mr. Proffitt while we were here about defender. Before I left this morning, someone came up on stage and prophesied to me and said, the angel that will be going with you this year is named defender.

Now see, these are the type of things I want you to see. My first stop, and you're already releasing the word to let me know the path is being set. See, the same thing's happening for you; you're just going to have to recognize what God is doing. And so, what you're going to see is judgment stirring with refreshing, and it's not going to be bad for you, it's just going to, you're going to say, well, that needed to happen because God is working all things together for good. Now, the south wind, see the south wind is filled with blessings and prosperity. I've got a team that's going to go through and pray through Lubbock this week because it's important that as we pray, as we say, "That which is the will of God in heaven stir up on earth." And I want you to know here in West Texas, you are stirring up the winds. This year when you see judgment winds, you're going to know God's in control. When you see refreshing winds, you're going to know that the Spirit of God is making himself manifest.

Blessing and prosperity is here for you in the West in a new way, but the wind must be stirred up. And then there's the west wind. See, the west wind is linked with mercy. It's linked with deliverance. And you want to know, there's a supernatural mercy and deliverance that is coming to this nation. Now, one of the things we'll be doing this year, starting next week is addressing every state; and the angelic rule in that state; and God's redemptive prophetic will for that state. I felt like God sent me here to say, you are entering a time where the atmosphere is changing greatly. And you know why? Because he can trust you.

You have something about you out here that makes him able to say, coming from this area, you'll be able to direct the winds just as he directed the winds on the Sea of Galilee. There's a new authority arising from the Church in this area, and that authority is going to produce great deliverance and great power. So, let me show you this one more time. See, there's a coming together here that has never fully happened that will happen. There is a movement of the Spirit of God that will happen this year that has never happened before. Because see, this era also is about Holy Spirit.

It's an era for a wine skin, explosive Kingdom movement. And I felt like last year when I was here, that by this time next year, the Kingdom wine skin that you are developing will go into a great motion, a great new alignment, a great new ability to mobilize, a great new ability to gather in a new way, and see Holy Spirit does something. What makes it a pay word is in the Aramaic it actually means, "I am sending that word as the one who will end the curses. The one who ends the curse is going to begin in your house." You know what that says to us? It says there's a whole new move of Holy Spirit coming to God's people here in West Texas. There's a whole new awakening of Holy Spirit coming. And things that have been dealt with for year after year, all of a sudden the Lord says, I'm going to bring it to an end.

Now I want us to stand up. I want to do something. Because knowing how supernatural this year is, knowing that you will see in ways you've never seen before and be filled by Holy Spirit and have an awakening to his Spirit in a way that it will be known West Texas is alive to Holy Spirit. And the Lord says, find every city that longs to have an awakening here in the West and stir the winds of that city. Find every group that longs to be a part of what I am calling you to be and do. Find them, draw them together. And the Lord says, you must see into a dimension you've never seen before. You're going to see the winds in motion

Because the winds are going to be moving in so many directions out here, but they're coming together in a way they have never come together before. And as you go through your new door of opportunity, our gate, you're going to find that there is already a freshness that has gone before you. You're going to be excited about the adventures ahead. You're going to be awakened in a way you've never been awakened before. And it's going to be known that West Texas is alive to the spirit of God. It is so key that you know that this year.

Now, father, I'm going to ask you, come right now. Just lift your hands, wave them to him. Come right now and begin to stir. Stir the Spirit of God that's so here. Stir the Spirit in a new way. Gather your Church in a new way throughout West Texas. And then Father, I decree that there will be a supernatural voice coming from West Texas that will change the course of history in days ahead. Father, I thank you. And just as Elisha prayed that his servant could see into a realm he had never seen into, I decree right now a seer's anointing coming all over West Texas. So they see the movement that you're bringing this year. Let's give a shout and thank God for what he's going to do.
